Assumptions/Explanations

- 1) Weapons in italics are post-1936
- 2) Action: DblAct=Double Action; SAuto=Semi-automatic; Lever=Lever Action; Auto1/3=Trigger pull fires 1 single rnd, hold trigger for 3 rnd/autofire bursts; Auto3=full-auto only, trigger pull fires 3
- 3) "Cap" is the amount of ammunition the weapon can carry; it also indicates how each weapon is loaded: belt (b), box (x), clip (c), drum (d), internal (i), revolver (r), strip (s)
- 4) "Wt" is weight in pounds, unloaded.
- 5) "Str" is minimum Strength to use without penalty.
- 6) "Spd" is weapon speed for initiative rolls.
- 7) "Dmg" is base damage dice.
- 8) Range increments in feet, +/- dice depending on increment. All firearms get a +1 at 0-10 feet ("point-blank"), and pistols get an additional +1 at point-blank for easier use and aim than longarms. Distances beyond the maximum listed get a -8 penalty.
